

MERCURY AWARENESS

Duration: 30 minutes

Questions: 10

Price Band: A

Course Outline:

This course is suitable for anyone working with or in an environment that contains mercury. The course provides candidates with an awareness of the dangers of mercury exposure, the controls used to limit the effects of it and what to do if contamination occurs.

Learning Objectives:

L01: Describe what mercury is and the different forms it can take.

L02: Describe the hazards of mercury.

L03: Identify the exposure limits of mercury.

L04: Describe the control measures used to limit and control the effects of mercury exposure.

L05: Explain what to do in the event of mercury exposure or contamination.
