

NITROGEN AWARENESS

Duration: 30 minutes

Questions: 7

Price Band: A

Course Outline:

This course is suitable for anyone working with nitrogen and the inerting process in the oil and gas industry. The course will give you an understanding of the dangers that nitrogen poses, and the measures and processes used to control it.

Learning Objectives:

- LO1: Describe the properties of air and nitrogen.
- LO2: Explain why inert environments are dangerous.
- LO3: Explain the inerting process & when nitrogen is used.
- LO4: Describe draining, purging, venting.
- LO5: Explain who is at risk.
- LO6: Understand why multiple fatalities are more common.
- LO7: Identify typical control measures for inert environments.
