

HAND SAFETY (OSHA)

Duration: 25 minutes

Questions: 10

Price Band: A

Course Outline:

This course has been designed to provide an awareness of how, and why, a wide variety of hand related injuries can occur in the workplace. You will also learn how to treat specific injuries, along with practical advice on how to prevent them from occurring in the first place.

Learning Objectives:

- LO1: Understand the importance of hand safety
- LO2: List the common causes of hand injuries
- LO3: Describe work related hand and finger injuries
- LO4: Explain the different treatments for hand and finger injuries
- LO5: Describe the hierarchy of controls
- LO6: Explain how to avoid hand injuries during lifting activities
- LO7: Explain how to select, use and care for gloves
