

MARINE TRASH AND DEBRIS AWARENESS (OSHA)

Duration: 20 minutes

Questions: 5

Price Band: A

Course Outline:

Marine debris poses serious dangers to the environment and also presents health and safety risks. International regulations prohibit intentional dumping and require employers and employees to take precautions to prevent trash and debris from entering the waterways.

Learning Objectives:

- LO1: Define marine trash and debris and identify common sources
- LO2: Identify the destination of marine trash and debris
- LO3: Explain the risk marine trash and debris pose to the environment
- LO4: Describe common causes of marine trash and debris
- LO5: Explain laws and regulations and preventative measures that stop trash and debris from entering the water
