

TsbB

Travel Safely by Boat

This course is designed for all personnel who are required to travel by boat to and from an offshore installation. The program, which is offered as a stand-alone course or as an additional module to the BOSIET, T- BOSIET, FOET and T-FOET courses, covers the necessary theoretical & practical exercises on:

- Preparation prior to traveling,
- Awareness of the risks to which they are exposed and how they are managed,
- An understanding of the essential safety rules with which they must comply and how to act in an emergency,
- Traveling to and from an offshore installation,
- Responding to boat emergencies as well as a practical assessment of transfer between a simulated boat deck and a simulated fixed installation deck using swing ropes.

General Course Objectives

During the course, delegates will gain a basic level of understanding and awareness of safety and emergency procedures associated with traveling by boat and safely transferring to, or from, an offshore installation.

Course Content
